

# Device Reset Guide

## 1.1. Autani Smart Switches

Autani smart switches can be added to the app to control individual lights or groups. Depending on the type of switch, up to three scenes can be assigned to a button. Switches automatically stop pairing mode after 30 seconds or when a button is pressed. They are added to the zones in which they are located.

## 1.2. Add a Switch

**Note:** Set the switch to pairing mode, then select “+” in the app to add the switch to the appropriate zone.

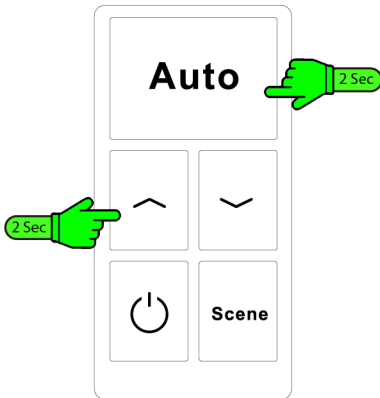

1. Open the **Switches** page in the app.
2. Tap the “+” button in the upper left corner.
3. The app will search for nearby switches.

## 1.3. LiteTrace Switch Reset Instructions

Follow the instructions below to pair or reset each switch type:

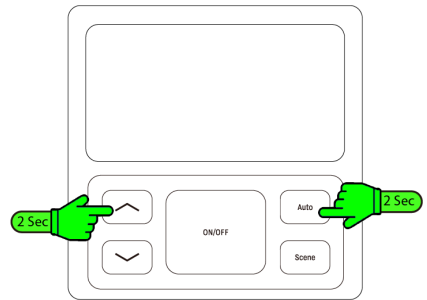

### 1.3.1. WP1025

Press and hold "Auto" and "Dim Up" simultaneously for **2 seconds** to enter pairing mode or reset.

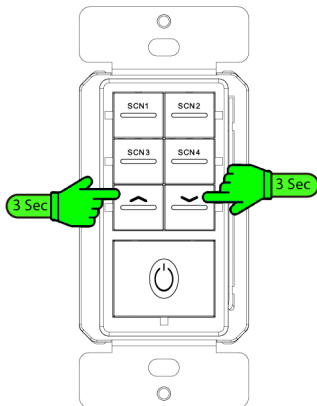

### 1.3.3. WP1055

Press and hold "Auto" and "^" simultaneously for **2 seconds** to enter pairing mode or reset.

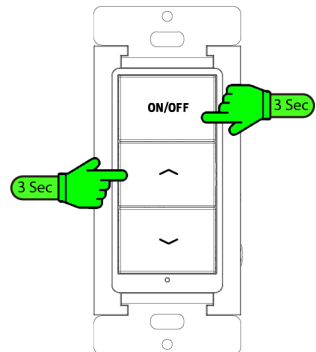

### 1.3.2. WP1075
